

News Brief

ICL Participates in Florida Educational Conferences

ICL exhibited and presented at two annual Florida educational conferences — the Florida Association for Staff Development (FASD) Conference and the K-12 Conference and Innovation Fair. The FASD conference focused on planning and evaluation, while the K-12 Conference and Innovation Fair concentrated on school academies, teacher compensation, and techniques for improving student achievement.

ICL was proud to serve as conference partners and share current resources, materials, and research. The ICL exhibit displayed TeacherNotes™, the most recent addition to the LearnRightNow™ series. Janet Pilcher and Robin Largue gave a presentation on their early career teaching model that focuses on collegial coaching.

ICL Celebrates with Oktoberfest and Ribbon Cutting

On October 19, ICL invited UWF colleagues and local school and community members to the first annual Oktoberfest and open house. The festivities included live music, brats, and spirits. The event was an opportunity for the ICL staff to thank those who

support their efforts and initiatives, and it was an occasion to show off the new ICL home on UWF historic properties in beautiful downtown historic Pensacola. ICL was also proud to share in an official ribbon cutting ceremony hosted by the Pensacola Bay Area Chamber of Commerce.

Good News!

ICL received SUCCEED funding from the Florida Department of Education to support TeacherReady™. TeacherReady™ is a state approved Educator Preparation Institute.
